

1. Identification of substance/mixture and contact

Trade name: Milenia® QuickLine Anti-mouse-IgA Sample buffer
Cat.-No. MQSBA
Intended use: Sample buffer for the identification of monoclonal mouse antibodies of subclass IgA
Manufacturer/supplier: Milenia Biotec GmbH
Versailler Straße 1, 35394 Gießen (Deutschland)
Phone: +49 (0)641-94 888 3-0, Telefax: +49 (0)641-94 888 3-80
E-mail: info@milenia-biotec.de
Internet: <http://www.milenia-biotec.de>
Emergency Call: see your local poison information center!

2. Possible Hazards

Classification of substance/mixture: no single substances - kit is classified as a mixture
Declaration of hazards: no information necessary
Specific hazards: no information necessary

3. Composition/Information on components

Description: Sample buffer for the identification of monoclonal mouse antibodies of subclass IgA
Ingredients of the kit: Phosphate-buffer solution, BSA, preservative

Identification of ingredients:

CAS-Nr.	EG-Nr.	Description	component	Conc.	Indexing
26628-22-8	247-852-1	Sodium azide	MQSBA	< 0,1%	--

Additional information:

No need for declaration below 0,1%

4. First-aid-steps

Due to the low concentration of chemicals and the chromatographic nature of the assay personal damages are extremely unlikely if the test is done according to the instructions. So far no injuries have been reported that could be linked to the use of the lateral flow immunoassay. For safety reasons general First Aid measures for chemical substances will be listed nevertheless.

Inhalation:	Remove source of exposure; take person outside at fresh air
Skin contact:	Remove source of exposure; wash affected area with water
Eye contact:	Remove source of exposure; wash with copious amounts of water
Ingestion:	Drink copious amounts of water
General advice:	If irritation or signs of toxicity occur, seek medical attention

5. Fire and Explosion Hazard Data

Extinguishing media:	Water spray, Foam, CO ₂ , Dry Chemical
Special hazards and safety measures in case of fire:	Special protection in case of fire-fighting is generally recommended

6. Accidental Release

Personal precautions:	Wear protective clothes, remove unprotected persons
Environmental precautions:	not necessary
Procedures for cleaning/collecting:	Spilled liquid should be wiped away with absorbent material and be submitted to disposal
Additional advice:	No hazardous compounds are released

7. Handling and storage

Protective measure for safe handling:	No special measures required, observe instructions for use
Conditions for safe storage:	see package insert

8. Exposure control and personal protection

Addition information about design of technical facilities:	not necessary
General protective and hygiene measures:	Keep away from food and beverages Wash hands
Protection of hands/eyes:	Protective lab glasses, gloves
Personal protection:	Laboratory clothes
Respiratory protection:	not necessary

9. Physical and chemical properties

	Components MQSBA
Form	liquid
Colour	Colourless to slightly brownish
Odour	No smell
pH (20°C)	7,3 – 7,5
Melting point/ Freezing point	Do not freeze
Boiling point (°C)	~ 100°C
Burning point (°C)	Not applicable
Evaporation rate	Not applicable
Ignition temperature	Not applicable
Flammability	Not applicable
Relative vapour pressure	Not applicable
Relative vapour density	Not applicable
Solubility in / Miscibility with water	unlimited soluble / miscible
Self-ignition (°C)	Not applicable
Explosive character	Not applicable

10. Stability and reactivity

Conditions to be avoided:	Light, heat, humidity (there is no dangerous reaction, the products become unusable).
Compounds to be omitted:	No special hazards known
Hazardous products of decomposition:	There are no known hazardous decomposition products

11. Toxicological information

Primary irritant effect on the eyes / skin:	Data concerning the toxicity of this product in the existing dilution are not available
Sensitization of respiratory system / skin:	No irritant effect known
Additional information:	The product should be used taking the usual precautions for handling chemicals

12. Ecological information

No data required. In the concentrations at hand an environmental threat is not to be expected. The concentration of the substances in the reagent is so low that there is no need for declaration.

Quantitative data on the toxic effects of this product is not available. But see point 13 of MSDS.

13. Disposal considerations

<u>Procedure of disposal:</u>	Follow the standard procedures for proper disposal of specimens
--------------------------------------	---

14. Transport information

UN-transport identification ADR/RID:	not subject
Hazard category for transportation:	not applicable
Environmental risks:	none
Special information for the user:	see chapter 6 to 8

15. Regulations

Labeling according to EC Directives:	no classification
Risk (H) and safety (P) phrases:	not necessary

National Regulations

Water hazard class:	WGK 0: not hazardous to water
Chemical Safety Assessment:	not necessary

**Material Safety Data Sheet (MSDS)
Appr. regulation (EG) No 2015/830
appendix II**

**MSDS-
MQSBA**

16. Other information

Changes compared to revised version: ---

The given information is based on the current state of knowledge but does not guaranty product performances and cannot be used as basis for legal disputes.

Material Safety Data Sheet issued by:

Mawacher
Safety Officer for Medical Devices

Date of issue of the Material Safety Data Sheet:
